

**REMARKS**

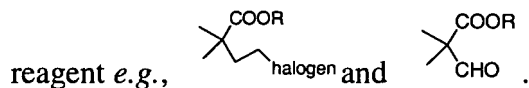

Applicants herein have amended Schemes 14 and 15, at pages 90-91 of the as-filed application to correct typographical errors found in the following chemical structures:

The typographical error in each of these structures is a missing methylene group (-CH<sub>2</sub>-) between the piperidine nitrogen atom and the ring structure (i.e., the cyclopropyl ring in Scheme 14 and the tetrahydropyran ring in Scheme 15). Support for this amendment is found at least in Schemes 14 and 15, where the reagent shown for each reaction

found at least in Schemes 7, 8, 10B, 11, 12, and 13, where the correct chemical structures are shown for the products of the chemical reactions, which are produced using a similar type of

Applicants submit that the proposed amendments do not add new matter. Applicants respectfully request that present amendments under 37 C.F.R. §1.312 be entered.

Respectfully submitted,
